

# FRONTLINE MESSENGER

The ministry « **Frontline Messenger** » is a non-profit organisation established officially in France (in Vosges area), the character of this ministry is Christian and humanitarian, with a team formed entirely by Seventh-day Adventist members. There is the three different missions objectives of this ministry :

**Evangelism (outside and through internet)**

**Social & Humanitarian actions**

**Support to SDA local churches**

## ORGANIZATION OF OUR WORK

Our mission center in each country is organized with three different teams working together, which is supervised by a Mission Leader. Here is how we work :

- One team with two local Adventist missionaries who work full time on evangelization, church support, and humanitarian support
- One team with two local Adventist missionaries who work full time on evangelization through internet (video messages, social media, bible study online, evangelistic website...)
- One team with two local Adventist missionaries who work full time on edition and translation in their local languages.
- And one Mission Leader (From Europe or America) who work full time in the country in charge, in order to supervise the team and accomplish the mission's objectives on the land.

## WORKS DONE

From 2014, our missionaries accomplished a lot of work for the Lord, in Vietnam, Cambodia, Lao and other countries, by sharing several thousand of bibles to the seventh day adventist members who didn't have one for financial reasons, and near to ten thousand book like « Step to Christ » from Ellen G.White, to the local population. All of this books is shared in the local langues of the population where we share them.

Our team also organise evengelistic seminar for the local population, which include free food, preach about Christ and bible messages, Worship songs for God, and a free book like Step to Christ at the end.

## EVANGELIZATION OUTSIDE

One major part of this mission is to share the gospel wherever the Lord send us. with our local Adventist missionaries, we can reach any places of the country, in order to bring the good news to the local population in their own language.

We offer bibles to the Adventist members who don't have one, bible messages as well, we share for free a lot of books like step to christ, the new testament... to the local population, with a message about the good news in Jesus Christ, we organise conferences, bible studies, visit the people in jail, and more...

### EVANGELISM THROUGH INTERNET

Our team already made a good work online as well, by sharing videos message based on the Seventh day Adventist message in Khmer (the official language of Cambodia), for there are millions of people in city who have today internet access through smartpone and computer.

This video chanel on Youtube already made more than fifty thousand vu from the Khmer population, and several of them contacted us in order to receive a bible, that we joyfully send to them with the address of the Adventist church close to them.

The Khmer population count around 95 % bouddhist, and many of them never heard about our Lord Jesus Christ, that's the reason why our local missionary team come also as far as possible in the countryside of the country where they don't have internet access, in order to share the gospel to this population.

## HUMANITARIAN SUPPORT

Our team furnish also a lot of work to support the poor families and children.

- We build wells in the poor villages in order to give them a free water access
- We bring them food for free, and hygienic kits
- This ministry also focus on the scholarisation for the children

All of this work is always joined by a a message of hope in Christ, and literature funding their school year, and school material.

## TRANSLATION / EDITION

From 2018 our missionary team also started to edit and translate book in the local languages of the countries where we work, We started the translation in Khmer of the books, Pilgrim's progress, Early Scriptures, and Event of the last days. The translation is a huge and long work, but also an essential part of the local mission. We also supported the Adventist federation in Laos, by totally funding the translation of the book « Step to Christ » in their local language.

### MISSIONARY PROJECTS

The Ministry Frontline Messenger and the missionary team grew each year by the grace of God, the work to be done in this world being massive, we must not limit ourselves to a few missions only, although several territories are already a field of operation for our missionary team, many virgin lands remain to be evangelized, we are currently preparing several missions in different countries such as Mongolia, Japan, Taiwan, and others, to instal also a mission center of our ministry in each one.

One important project that our ministry have also, is to build a Seventh Day Adventist school in Cambodia, in order to give a free education for the poor children and orphans, including the school subjects based on the bible and musical courses based on worship songs.

We are also preparing several missionary projects for the European territory, by the grace of God, we can then work differently but powerfully as well on this continent to share the beauty of the gospel found in Jesus Christ our Lord. These different projects can be shared by contacting us via our contact information at the end of the document.

### FINANCIAL PART

From 2017 our ministry worked on several project in order to became financially self supporting, we have since 2018 a Vegan restaurant in Siem Reap (Cambodia), on the same place that our mission center of this country. This restaurant was made by God's providence, in order to self support as much as possible for our missions, but it's also made to share an hygienic food the local population, as well as message on health. We are of course closed on sabbath, and we plan to share flyers about the health, and the gospel to the customers.

Hygienic restaurants are to be started in our cities. Thus, a good work may be done. God will give His people skill and wisdom to make wholesome, palatable foods. He who in the wilderness gave manna to the children of Israel, is our God, ready to give light and knowledge to those whose desire it is to glorify Him. Those in charge of our restaurants should take a firm stand to close them on the Sabbath. Thus, they proclaim the Sabbath truth. {18MR 186.3}

Unfortunately, the financial need of this mission is to huge to be supported by a simple restaurant, we plan to build this restaurant in other places where we are, but the mission as well as the restaurant cost a lot. it's of course with your support that we could accomplish all of these projects As written above, the ministry « Frontline Messenger » is a non-profit organization officially established in France, we have the possibility to send a tax receipt for each donation.

Most of us work full time in this ministry, of course the local Adventist missionaries get a salary for their work, then we always need to be supported in order to continue this mission, and progress in other countries.

All the books we share is also always offered for free to the local population (in poor countries), we are then usually out of bibles and other books for the mission
